The student/ graduate identifies specific problems, shades of meaning, cultural assumptions of the text to be translated, and chooses the suitable translation strategy.

¹ The professional and/or transversal skills targeted by the subject for which the course description is prepared will be copied from the curriculum of the degree programme. For each competence, the complete entry, including the competence code, will be copied with the exact designation that appears in the curriculum, without any changes. If no competence is copied from either of the two categories, the row corresponding to that category is deleted from the table.

² The learning outcomes relevant for the degree programme and targeted by the subject for which the course description is prepared will be listed. The entries, copied without any changes from the Curriculum (Core Subject/Specialisation Subject/Complementary Subject), are listed under the corresponding competence.
